

HARVESTER SPARE PARTS

HAR MASTER
HARVESTER SPARE PARTS

About Us

HARMASTER was founded by Hasan KENDİRCİ in 1957 and has been serving as a reliable company in the Combine-Harvester Spare Parts sector since its establishment.

It distributes all combine-harvester sieves, straw walkers, concaves, steel finger and other spare parts all over Turkey. The products offered by HARMASTER to its customers are products supplied by harvester companies that are recognized all over the world, have proven themselves as quality and standardized equipment suppliers.

It offers its customers a quality and wide range of products at a reasonable price and when they need it with its 1000 square meters closed, 1500 square meters of production and storage area and personnel specialized in their profession. The department personnel responsible for the production and project design of the products follow the market closely and act with their customers in order to ensure the timely supply of the demands and present the innovations to the market as soon as possible.

Timely deliveries, expert staff focused on customer satisfaction, competitive product range that offers price and quality together, infrastructure that forces the market and its customers to innovate, have made HARMASTER a selected and preferred company in the combine-harvester spare parts sector.

HAR MASTER
HARVESTER SPARE PARTS

HARVESTMASTER

HARVESTER SPARE PARTS

Our Vision

To be the pioneer of innovations and developments in the Combine-Harvester Spare Parts market that exceed the expectations of its customers and the market.

Our Mission

To have a quality understanding of product and service management by keeping the spare parts needs of Domestic and International Harvesters in the forefront, being able to comprehend the needs of the sector quickly, investing in people and information.

Quality Standarts

WE UNDERTAKE

- to produce reliable products meeting the quality and performance of the customer expectations, at the appropriate market price,
- to enhance the quality by constant improvement activities and reduce costs,
- to develop business processes in a timely manner with changing conditions and expectations,
- to be in the development by giving importance to effective communication in the relations, participatory behavior, constructive criticism, more responsibility, teamwork understanding,
- to provide the oversea requirements in time, complete and ensure the credibility,
- to support their development in order to reach the common goals of quality products and customer satisfaction by integrating with our suppliers,
- to protect the environment, use materials and technology which do not harm the environment and human health,
